

Gloss Surface Cleaner

Key Features:

Gloss Surface Cleaner is a ready to use foam cleaner which quickly provides a smear free finish on gloss surfaces.

In just one quick and easy application it polishes leaving gloss kitchen cupboards, appliances, glass, mirrors or chrome surfaces free from grubby finger prints, water marks, dust and light dirt and looking as good as new.

Unika's Gloss Cleaner is the only product of its kind that restores a high sheen after every application. Other traditional multi-surface cleaners can be mildly abrasive causing gloss cupboards, for example, to become dull over time.

Gloss Surface Cleaner is a professional grade cleaner which also reduces the rate of static pick-up on any surface – reducing the build up of dust.

Directions for Use:

Spray sparingly onto gloss surfaces and buff dry with a micro fibre cloth.

For stubborn areas leave for 1 – 2 minutes for foam to collapse and the moisture to soften the marks.

Consumer Benefits:

Quick and easy to use. Gloss Surface Cleaner has been specifically designed to give the best cleaning to remove dust, light dirt and water marks from Gloss Cupboards.

Retailer Opportunity:

Can be sold alongside all Gloss kitchen sales as an Aftercare kit.

The customer will not find a specific cleaner like this in the supermarket. They will only find a multi surface cleaner which may be too abrasive for gloss surfaces.

Delayed / immediate effects: No symptoms.

4.3. Indication of any immediate medical attention and special treatment needed

Immediate / special treatment: Not applicable.

Section 5: Fire-fighting measures

5.1. Extinguishing media

Extinguishing media: Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

5.2. Special hazards arising from the substance or mixture

Exposure hazards: Highly flammable. Vapour may travel considerable distance to source of ignition and flash back. Forms explosive air-vapour mixture. In combustion emits toxic fumes.

5.3. Advice for fire-fighters

Advice for fire-fighters: Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions: Refer to section 8 of SDS for personal protection details. Eliminate all sources of ignition. Mark out the contaminated area with signs and prevent access to unauthorised personnel.

6.2. Environmental precautions

Environmental precautions: Do not discharge into drains or rivers. Contain the spillage using bunding.

6.3. Methods and material for containment and cleaning up

Clean-up procedures: Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

6.4. Reference to other sections

Reference to other sections: Refer to section 8 of SDS.

Section 7: Handling and storage

7.1. Precautions for safe handling

Handling requirements: Smoking is forbidden. Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area. Do not handle in a confined space. Avoid the formation or spread of mists in the air.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a cool, well ventilated area. Keep container tightly closed. The floor of the storage room must be impermeable to prevent the escape of liquids.

Suitable packaging: Must only be kept in original packaging.
