

# ColorFill Worktop Joint Sealant

## Key Features:

- ColorFill is the first sealant to be designed for the installation of mitred worktop joints.
- It performs three tasks:
  - It bonds the joint together
  - It seals the joint against water and domestic detergents
  - It is exactly colour matched to the worktop so making the finished joint almost invisible.
- ColorFill colours have been specifically developed to match the most popular brands of laminate across Europe including plain colour, woodgrains and patterned finishes.
- Unika has over 400 colours – one for almost every worktop finish.

- ColorFill has been formulated to resist moisture, detergent and other household products as efficiently as the laminate and will withstand heat and direct sunlight.

## Directions for Use:

A 25g tube of ColorFill is sufficient to seal a 600mm x 40mm or 30mm joint.

Using the applicator to guide, apply a thick bead around the leading edge of the joint to both the bottom and top of the exposed core. Quickly close the joint and allow the excess sealant to squeeze out of the joint, align the two sides and tighten the bolts fully. Remove excess sealant with the angled scraper side of the applicator and clean off the remaining surplus sealant with a solvent moistened tissue taking care not to dislodge any ColorFill still setting in the joint.

ColorFill is an adhesive and sealant in one and should not be mixed with or combined with any other material in the joint.

## Retailer Opportunity:

There is no other product on the market like ColorFill – with a range of over 400 colours.

ColorFill is a recognised brand name.

Colorfill colours can be manufactured to exactly match a whole range of laminates.

Each ColorFill Blisterpack/Individual box includes an applicator/scrapper and 20ml solvent for clean up.

## UNIKA COLOR PRODUCTS LTD

Unika House, New York Way, New York Industrial Park, Newcastle upon Tyne, U.K. NE27 0QF

Telephone: +44 (0) 191 259 0033

## Technical Data Sheet

### ColorFill

#### Product Description

ColorFill is a sealant with a characteristic solvent smell. It comes in a variety of colours.

#### Benefits

- ColorFill is easy to apply, dries quickly and is impervious to water when dry.
- Good heat resistance to 140°C.
- Colour is permanent and is UV resistant
- ColorFill has a shelf life of 2 year in unopened packaging.

#### Applications

ColorFill is used as a sealant for worktop mitre joints, as a repair compound for damage in laminate surfaces and as a gap-filling sealant for laminate flooring installations.

A 25g tube is sufficient for a 600 mm worktop.

#### Directions of Use

For repairs: apply from tube and smooth with spatula.

For mitres: a bead of Colorfill is applied around the mitre before the edges are brought together and the joining bolts fastened.

Clean any excess product with ColorFill solvent, taking care not to remove any from the repair/joint.

#### Surface Preparations and Finishing

- Application temperature +5°C to +30°C (environment and substrate).
- Surfaces must be dry, clean and solid.

#### Cleaning

- Clean with ColorFill solvent

#### Additional information

Viscosity	450 poise
Cure Speed	air drying – 1mm/30min
Skin Forming	Touch dry after 2 min
Shrink	About 30%
Gap Fill	20 mm
% Volatile	50%± 5%
Flash Point	<0°C
Shelf Life	2 years @ 20°C
Specific Gravity	About 0.96
Operating Temperature	-10°C to + 30°C

#### Colour(s)

- Various

#### Packaging

- 25g Tube

#### Shelf Life

In unopened original packaging between +5°C and +25°C, shelf-life till 24 months after production date, stored in a dry place.

#### Health & Safety

Keep in a cool well-ventilated area away from sources of ignition.

Keep away from children at all times.

Keep containers sealed.

Use in a well-ventilated area.

Avoid contact with skin and eyes

For further information, please read the product SDS.

Note: The data, information and values contained in this Technical Data Sheet have been obtained by conducting various tests in a controlled laboratory environment, and should be used for guidance purposes only. Although we believe them to be reliable and accurate, users should always conduct their own tests in their specific working conditions to ensure that the product is suitable and effective for use. It is the user's sole responsibility to determine the suitability of the product for the application. Unika Color Products Ltd. Cannot be held responsible for the results of procedures undertaken elsewhere, nor for the safeguarding of personnel or property, all of which is the duty of the user. Suitability of products or methods is discretionary. Therefore, warranties or implied usage obligations should not be attributed to and are not the responsibility of Unika Color Products Ltd. Unika Color Products Ltd. are not liable for any financial loss or other damages incurred by the user as a result of the use of this product.

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

**Product name:** COLORFILL

**Product code:** CFXXX

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Use of substance / mixture:** PC1: Adhesives, sealants.

#### 1.3. Details of the supplier of the safety data sheet

**Company name:** Unika Color Products Ltd

Unika House

New York Way

New York Industrial Park

Newcastle upon Tyne

NE27 0QF

United Kingdom

**Tel:** +44 (0) 191-259-0033

**Fax:** +44 (0) 191-257-4525

**Email:** [technical@unika.co.uk](mailto:technical@unika.co.uk)

#### 1.4. Emergency telephone number

### Section 2: Hazards identification

#### 2.1. Classification of the substance or mixture

**Classification under CLP:** Flam. Liq. 2: H225; Eye Irrit. 2: H319; STOT SE 3: H336; -: EUH066

**Most important adverse effects:** Repeated exposure may cause skin dryness or cracking. Highly flammable liquid and vapour. Causes serious eye irritation. May cause drowsiness or dizziness.

#### 2.2. Label elements

**Label elements:**

**Hazard statements:** EUH066: Repeated exposure may cause skin dryness or cracking.

H225: Highly flammable liquid and vapour.

H319: Causes serious eye irritation.

H336: May cause drowsiness or dizziness.

**Hazard pictograms:** GHS02: Flame

GHS07: Exclamation mark

# SAFETY DATA SHEET

COLORFILL

Page: 2

**Signal words:** Danger

**Precautionary statements:** P102: Keep out of reach of children.

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P261: Avoid breathing fumes/vapours.

P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P304+340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

## 2.3. Other hazards

**Other hazards:** In use, may form flammable / explosive vapour-air mixture.

**PBT:** This product is not identified as a PBT/vPvB substance.

## Section 3: Composition/information on ingredients

### 3.2. Mixtures

#### Hazardous ingredients:

##### ACETONE

EINECS	CAS	PBT / WEL	CLP Classification	Percent
200-662-2	67-64-1	-	Flam. Liq. 2: H225; Eye Irrit. 2: H319; STOT SE 3: H336; -: EUH066	10-30%

##### PROPAN-2-OL

## Section 4: First aid measures

### 4.1. Description of first aid measures

**Skin contact:** Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash immediately with plenty of soap and water.

**Eye contact:** Bathe the eye with running water for 15 minutes. Consult a doctor.

**Ingestion:** Wash out mouth with water. Consult a doctor.

**Inhalation:** Remove casualty from exposure ensuring one's own safety whilst doing so. Consult a doctor.

[cont...]

# SAFETY DATA SHEET

COLORFILL

Page: 3

## 4.2. Most important symptoms and effects, both acute and delayed

**Skin contact:** There may be irritation and redness at the site of contact.

**Eye contact:** There may be irritation and redness. The eyes may water profusely.

**Ingestion:** There may be soreness and redness of the mouth and throat.

**Inhalation:** There may be irritation of the throat with a feeling of tightness in the chest. Exposure may cause coughing or wheezing.

**Delayed / immediate effects:** Immediate effects can be expected after short-term exposure.

## 4.3. Indication of any immediate medical attention and special treatment needed

**Immediate / special treatment:** Eye bathing equipment should be available on the premises.

## Section 5: Fire-fighting measures

### 5.1. Extinguishing media

**Extinguishing media:** Alcohol resistant foam. Water spray. Carbon dioxide. Dry chemical powder. Use water spray to cool containers.

### 5.2. Special hazards arising from the substance or mixture

**Exposure hazards:** Highly flammable. In combustion emits toxic fumes. Forms explosive air-vapour mixture. Vapour may travel considerable distance to source of ignition and flash back.

### 5.3. Advice for fire-fighters

**Advice for fire-fighters:** Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

## Section 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions:** Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak-side up to prevent the escape of liquid. Eliminate all sources of ignition.

### 6.2. Environmental precautions

**Environmental precautions:** Do not discharge into drains or rivers. Contain the spillage using bunding.

### 6.3. Methods and material for containment and cleaning up

**Clean-up procedures:** Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Do not use equipment in clean-up procedure which may produce sparks.

### 6.4. Reference to other sections

**Reference to other sections:** Refer to section 8 of SDS. Refer to section 13 of SDS.

[cont...]

# SAFETY DATA SHEET

COLORFILL

Page: 4

## Section 7: Handling and storage

### 7.1. Precautions for safe handling

**Handling requirements:** Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area.  
Do not handle in a confined space. Avoid the formation or spread of mists in the air.  
Smoking is forbidden. Use non-sparking tools.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage conditions:** Store in a cool, well ventilated area. Keep container tightly closed. Keep away from sources of ignition. Prevent the build up of electrostatic charge in the immediate area.  
Ensure lighting and electrical equipment are not a source of ignition.

### 7.3. Specific end use(s)

**Specific end use(s):** No data available.

## Section 8: Exposure controls/personal protection

### 8.1. Control parameters

**Hazardous ingredients:**

#### ACETONE

**Workplace exposure limits:**

**Respirable dust**

State	8 hour TWA	15 min. STEL	8 hour TWA	15 min. STEL

### DNEL/PNEC Values

**DNEL / PNEC** No data available.

### 8.2. Exposure controls

**Engineering measures:** Ensure there is sufficient ventilation of the area. Ensure lighting and electrical equipment are not a source of ignition.

**Respiratory protection:** Self-contained breathing apparatus must be available in case of emergency.

**Hand protection:** Protective gloves.

**Eye protection:** Safety glasses. Ensure eye bath is to hand.

**Skin protection:** Protective clothing.

**Environmental:** The floor of the storage room must be impermeable to prevent the escape of liquids.

[cont...]

# SAFETY DATA SHEET

COLORFILL

Page: 5

Ensure all engineering measures mentioned in section 7 of SDS are in place. Storage should be placed inside a fully bunded area of sufficient size to contain the volume plus 10%.

## Section 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

**State:** Liquid

**Colour:** Colourless

**Odour:** Characteristic odour

**Viscosity:** Highly viscous

**Boiling point/range°C:** 80

**Flammability limits %: lower:** 3

**upper:** 13

**Flash point°C:** 0

**Autoflammability°C:** 465

**Vapour pressure:** 400

### 9.2. Other information

**Other information:** No data available.

## Section 10: Stability and reactivity

### 10.1. Reactivity

**Reactivity:** Stable under recommended transport or storage conditions.

### 10.2. Chemical stability

**Chemical stability:** Stable under normal conditions. Stable at room temperature.

### 10.3. Possibility of hazardous reactions

**Hazardous reactions:** Hazardous reactions will not occur under normal transport or storage conditions.

Decomposition may occur on exposure to conditions or materials listed below. May polymerise violently with risk of fire and explosion. Decomposition may generate enough heat and gases for fires/explosions.

### 10.4. Conditions to avoid

**Conditions to avoid:** Heat. Hot surfaces. Sources of ignition. Flames.

### 10.5. Incompatible materials

**Materials to avoid:** Strong oxidising agents. Strong acids.

### 10.6. Hazardous decomposition products

**Haz. decomp. products:** In combustion emits toxic fumes.

## Section 11: Toxicological information
