

100% waterproof pvc wall and  
ceiling panels range  
with easy fit system

Transform your  
bathroom with this  
elegant system of  
internal panelling for  
walls and ceilings

## Max-fit

Fast and easy **wide fit wall panels**

The perfect fix for when you require a reliable waterproof solution with excellent value for money for your bathroom.

Supplied 1 metre wide, our panels are ideal for covering larger areas and can easily line out an entire shower enclosure with just two boards. They can also easily clad an entire wet room in no time.

Manufactured with an open cell structure, our panels help to insulate the room and reduce condensation. As well as this, their pvc surfaces are smooth, easy to clean, mould resistant and easily disinfected.

Décor: White Sparkle

Technical Specification

1000mm PVC wall panel

Size	2400mm x 1000mm
Thickness	10mm

# PVC Ceiling Panels

When renovating bathrooms, ceilings are often ignored. However with our range of tongue and groove ceiling panels, updating your tired ceilings can be both quick and affordable.

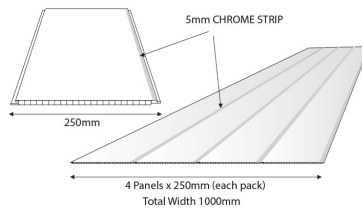

There is no need for messy plaster or tricky painting - simply trim the conveniently sized lengths of Ancona ceiling panel strips and click together.

The range includes 7 stylish design options which are available in a choice of 4m or 2.7m lengths\*

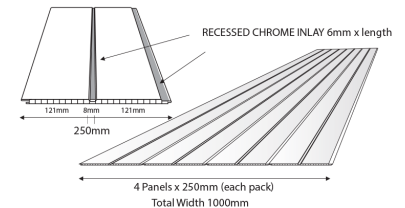

## Single Chrome

each panel is 250mm wide with a chrome strip and white gloss finish

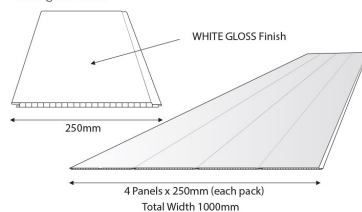

## Double Chrome

each panel is 250mm wide with a 6mm recessed chrome inlay strip and white gloss finish

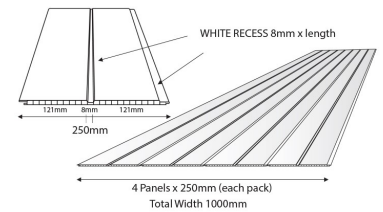

## White Gloss

each panel is 250mm wide with a white gloss finish

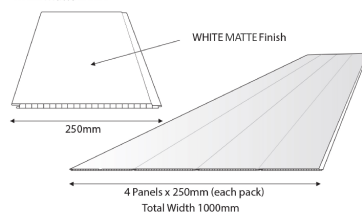

## Double White

each panel is 250mm wide with a white recess and white gloss finish

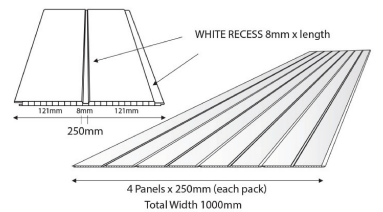

## White Matte

each panel is 250mm wide with a white matte finish

## Double White Matte

each panel is 250mm wide with a white recess and white matte finish

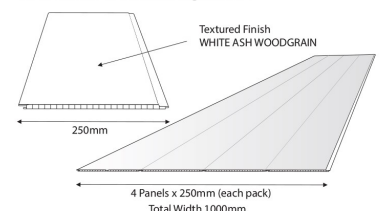

## KEY FEATURES

- 100% waterproof
- affordable solution
- 2700mm pack, covers 2.7 sqm
- 4000mm pack, covers 4 sqm
- quick to install
- hygienic
- easy to maintain and keep clean

## White Ash Woodgrain

each panel is 250mm wide with a textured white ash woodgrain finish.

\*2700mm and 4000mm lengths are not necessarily interchangeable due to batch production. This may result in colour variance during manufacture

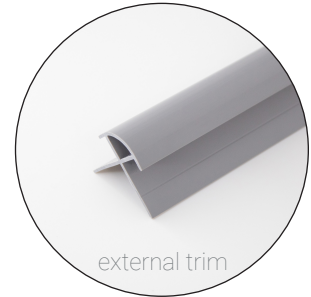

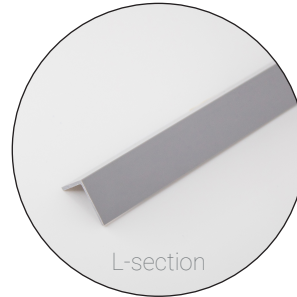

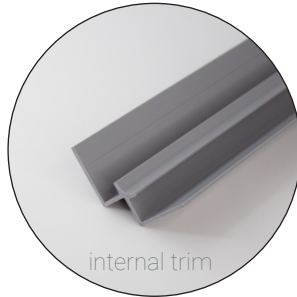

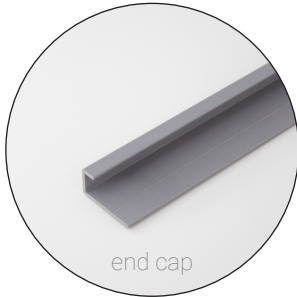

## Accessories

To ensure a professional looking finish, even in regards to DIY projects, we provide a range of complementary accessories and aids for use during installation.

### Wall panel trims (available in white, black or grey)

All Ancona pvc wall panels are supplied tongue and groove as standard, meaning they do not require the use of trims to join panels, however we would recommend the use of internal and external trims for corners areas.

As well as this we offer end caps for exposed edges in shower areas or window sills/ doors, as well as L-section trims for external corners, boxing in windows & doors. We also recommend the use of our Cladseal trim between the shower tray and bottom of your panels.

*Please note: our panel trims should be purchased alongside any Ancona order.*

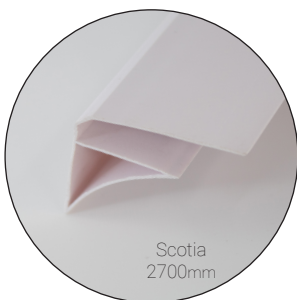

### Adhesive & Silicone

Tried and tested, we recommend using our own brand panel adhesive and silicone sealant during installation of your panels for the best results.

Sold individually or in boxes of 12, we have both clear and white silicone options available to suit your chosen design - guaranteeing both aesthetic and water tight protection.

### Ceiling panel trim

And, for an additional decorative layer between your panels and ceilings, we also supply decorative PVC coving to complement.

they can be used to cover expansion gaps.

Choose from either our Scotia or Quadrant design.
