REDEFINING WET ZONES

Vipanel® is a new collection of ultra-slim decorative wall panels that transform bathrooms and wet zones with calm, balance, and timeless design.

Forget messy tiles and time-consuming renovations – Vipanel® offers a smarter way to upgrade your space with fast installation, seamless grout free surfaces, and effortless maintenance.

The panels can even be mounted directly on top of existing tiles, making renovation quicker and easier than ever.

Designed for private homes and commercial interiors alike, our collection of wall panels creates flexible design solutions for wet zones.

VIPANEL® – STYLE. SIMPLICITY. SEAMLESS SURFACES.

WHEN STYLE SETS THE STANDARD

Your bathroom should reflect your personal style – and with Vipanel®, it's easy to achieve

From sleek minimalism to natural textures, every decor in the Vipanel® collection has been carefully curated to match today's most inspiring interior trends.

Each decor offers impressive visual depth and a remarkably realistic surface texture – whether it showcases wood, stone or concrete.

For even further personalisation, Vipanel® is available with a variety of elegant profile options adding structure and contrast – or you can go fully seamless for a clean, uninterrupted look. The choice is yours.

Whether you prefer the calm of Scandinavian style or the bold statements of a maximalist space, you'll find the right panel here.

Explore our eight style stories – each featuring selected decor options from our full collection.

FIND YOUR LOOK. THEN MAKE IT YOURS.

MINIMALIST DESIGN

Where less becomes more

Clean lines. Cool tones. Calm clarity.

Minimalist design embraces the beauty of simplicity – where every surface serves a purpose and nothing distracts.

With subtle textures and pared-back finishes, Vipanel® creates a sense of calm and effortless sophistication in any bathroom.

TRADITIONAL DESIGN

Timeless elegance, beautifully updated

Warm neutrals, classic marbles and soft stone finishes bring a sense of heritage and comfort into the modern bathroom.

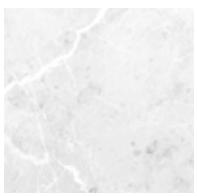

Vipanel® reimagines traditional style with a fresh eye – combining refined materials with contemporary functionality.

RETRO DESIGN

Bold character. Playful charm

Retro style is all about personality.

Think warm, nostalgic colour palettes and classic herringbone patterns – reinterpreted in a contemporary setting. Vipanel® lets you create bathrooms that feel vibrant, nostalgic, and anything but ordinary.

BIOPHILIC DESIGN

Nature, indoors. Tranquillity, everywhere

Bring the outside in with natural finishes, warm wood textures and soft greens.

Vipanel® supports biophilic design principles with surfaces that connect us to nature – promoting wellbeing whilst creating spa-like calm in the everyday.

SCANDI DESIGN

Light, functional and beautifully Nordic

Scandi style blends simplicity with soul. Inspired by Nordic nature, this look uses pale woods, matt whites and natural light to create bathrooms that feel clean, bright and thoughtfully crafted.

Vipanel® makes it easy to achieve that effortlessly stylish look – with surfaces that work beautifully and last.

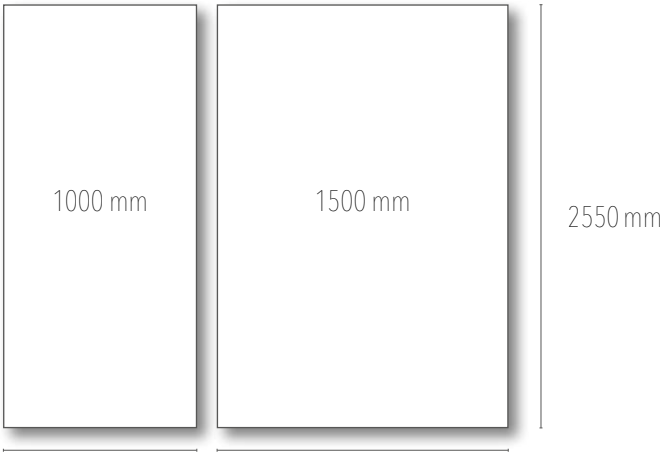

Anthracite Concrete matt

Perfectly Sized for Any Bathroom

Vipanel® panels come in extra-wide formats of 1000 & 1500 mm and heights up to 2550 mm – making it easy to cover large wall areas and rooms with higher ceilings with fewer joints and a seamless, modern look.

VIPANEL® by roth 10 year warranty

MATERIAL & QUALITY

Beyond Beautiful

Vipanel® is more than a surface – it's a high-performance composite panel designed to last.

Its ultra-thin 3 mm profile delivers lightness, rigidity and strength, whilst the extra wide 1000mm and 1500mm formats minimise visible joints giving a sleek, modern finish.

Older rooms with higher ceilings can be transformed with ease with our extra height 2550mm panels..

Vipanel® panels are produced with state-of-the-art technology capturing every nuance of colour, texture, and depth. The result is a sharp and realistic surface expression that brings each décor to life.

- Totally waterproof
- Lightweight yet strong
- Seamless - no need for ugly grout
- Extra wide and extra height format
- State-of-the-art printing technology
- Ultra thin: install directly onto walls or over existing tiles
- Made for easy installation

DESIGN FLEXIBILITY WITHOUT COMPROMISE

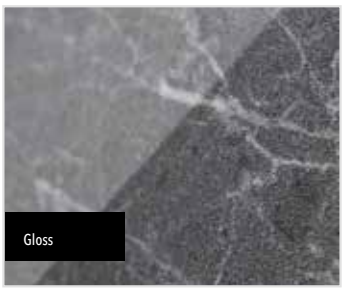

REDEFINING GLOSS - SETTING NEW STANDARDS

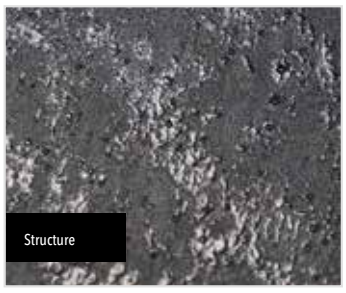

Grey Marble gloss

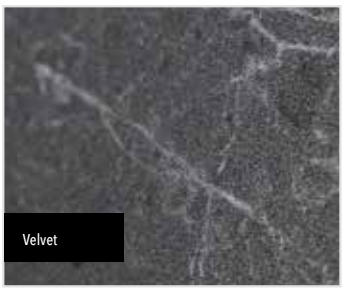

Vipanel® gloss surfaces offer a mirror-like finish that rivals real glass, combining luxury with lasting durability and effortless maintenance.

The Smooth Surfaces of Vipanel®

EASY TO CLEAN

Clean Looks, Clean Living

The smooth, seamless surfaces of Vipanel® are made for modern life.
With no grout lines to trap dirt or moisture, cleaning is fast, simple, and stress-free.

The panels are certified to withstand wear, chemicals, and hot water – making them the hygienic, low-maintenance choice for daily use.

- No grout = no mold
- Wipe clean surfaces for faster daily cleaning
- Built to withstand the busiest of homes

LESS CLEANING. MORE LIVING.

FAST INSTALLATION - LESS HASSLE

Save Time. Reduce Disruption

Forget days of tiling, drying time, and multiple trades. With Vipanel®, most installations are completed within a single day – with minimal mess and downtime.

Panels can be installed directly on tiles or the wall using standard tools and adhesives. No grouting, no complex equipment – just rapid, straightforward work.

Important: It is essential that walls comply with current requirements for wet-room membranes before installation.

Perfect for homeowners who want a fast makeover – and for professionals who value time on site.

- Up to 5 x faster than traditional tiling
- Less dust, less downtime
- Fewer work hours – lower overall cost
- Ideal for renovations or new builds

MAKEOVERS MADE EASY

Moonlight gloss

SUSTAINABILITY

Design with documented impact

Vipanel® is designed with ease of installation and transparent environmental documentation in mind.
From material composition to installation and everyday use, the panels are developed with a focus on durability.

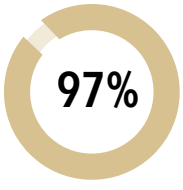

Materials
- Up to 97% post-industrial recycled aluminium in surface layers
- Core made from 100% recycled LDPE (plastic)
- Manufactured in Europe

Installation and use
- Can be installed over existing tiles, depending on substrate and conditions
- May reduce material use depending on the wall construction
- Easy to clean with limited use of water and cleaning products

Documentation
- Third-party verified Environmental Product Declaration (EPD)
- Based on product-specific data across materials, production and transport
- Developed according to recognised European standards

DOCUMENTED DESIGN. INFORMED CHOICES.

ACCESSORIES & INSTALLATION

To finish off edges or to join panels in the corner and even to create a virtually seamless finish, we have the right profiles to complete your design.

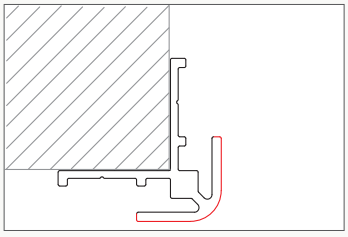

- All profiles are 2550 mm tall and available in three colours, aluminium, white & black.
- We recommend that your installer follows local rules regarding sealing walls behind panels.
- Installation uses readily available adhesives and sealants. Your installer will be able to advise.
- Our installation instructions are a click away using the QR code.

		Colours	Length (mm)	Number
Vipanel® Finishing Profile		Aluminium	2550	17RF2000.002
		White		17RF2000.003
		Black		17RF2000.004
Vipanel® Internal Corner Profile		Aluminium	2550	17RF2000.005
		White		17RF2000.006
		Black		17RF2000.007
Vipanel® H-jointing Profile		Aluminium	2550	17RF2000.011
		White		17RF2000.012
		Black		17RF2000.013
Vipanel® External Corner Profile		Aluminium	2550	17RF2000.008
		White		17RF2000.009
		Black		17RF2000.010
Vipanel® Seamless Wall Profile Panels can be jointed virtually seamlessly with our clever hidden wall profile.			2550	17RF2000.001
Vipanel® Magnetic Clamp The profile creates a strong joint and with our smart magnetic clamp, smooth results are a breeze.				17RF2000.000

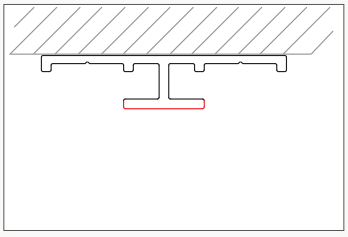

Internal Corner Profile

Vipanel® doesn't need profiles for internal corners. Simply seam with silicone. However, if you prefer to use a profile, we have a neat solution.

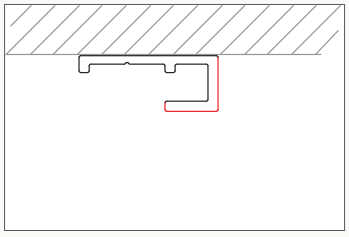

External Corner Profile

Used for external corners or around pipe boxing or to form bath panels.

H-jointing Profile

Vipanel® doesn't need profiles to join two panels in line.
However, if you prefer, we have this easy profile.

Finishing Profile

Use this neat profile to finish visible panel edges.
It can be used vertically or horisontally where panels are used to create half height designs.
